

Professional Lithium Battery Packs

**TIRED OF LUGGING AROUND
A HEAVY BATTERY?**

**DISCOVER THE LATEST
PORTABLE POWER!**

Integrated Thermal Fuse providing the following protection:

OVERCHARGE	✓
OVER TEMPERATURE	✓
OVER CURRENT	✓
DEEP DISCHARGE	✓
SHORT CIRCUIT	✓

Lithium battery packs offer tremendous advantages over traditional sealed lead acid SLA batteries.

- Extremely lightweight (1/3 weight of sealed lead Acid)
- Smaller physical size
- The built in fuel gauge lets you know how much power is left in your battery.
- Longer lasting discharge
- Faster recharge time
- Overcharge and short circuit protected
- Robust ABS case with quality canvas belt case
- AC mains charger
- DC vehicle charger on all models
- Canvas carry pack with belt loop
- Powers 12V lights or Deben gun lights up to 100W
- Supplied with 12V cigar adaptor
- Suitable for many uses in addition to high power 12V lighting.
- Purpose made adaptors supplied to customers requirement (ring for details).

All lithium polymer battery packs are supplied with:

- Canvas carry pack with belt loop
- DC vehicle charger
- Adaptor lead for 12V lights
- AC mains charger

Fuel Gauge

The built in fuel gauge indicates the battery charge condition.
